SmarTrack
AGILE ASSET TRACKING & MANAGEMENT

The healthcare asset management environment changes at the speed of light. Constant innovation and cutting-edge technology requires medical logistics support personnel to be equipped with an asset management system that streamlines asset lifecycle management.

SmarTrack medical asset and lifecycle management system provides enterprise level logistical management software to streamline warehouse and medical facility operations.

SMARTRACK MEDICAL

SmarTrack Medical features four sub-products, which can be integrated into the software package.

■ WAREHOUSE

The warehouse management module allows you to manage any size warehouse. Warehouse organization, pinpoint asset visibility, automated ordering, packing, picking and shipping.

■ MEDICAL FACILITY

Medical facilities have a widely fluctuating support and resupply. SmarTrack provides that on demand monitoring and resupply fulfillment in real time. With minimal storage space real-time delivery is critical.

■ HOSPITAL

Hospitals have many moving parts, people, staff, beds, wheels chairs, testing and monitoring equipment. All of these assets are critical in saving lives, SmarTrack allows you track the exact location of every asset at all times.

■ MEDICAL EQUIPMENT

Medical Equipment is critical in the life saving business, SmarTrack will provide the ability to schedule, track and alert maintenance personnel to all required scheduled maintenance and calibration activities to maintain equipment serviceability.
